## Technology Tip: Send a Timed Email On Outlook

Get More Out of Your Email

- 1) Start a new email by clicking the  button in the upper left hand corner of the screen.
- 2) For this example we'll have you send a timed email to yourself. Type your own email address in the "TO:" line of the new email. If you wanted to send a timed email to someone else or a group of people you'd type in their addresses instead.
- 3) Under "Subject:" type in "It's time to go home" and type whatever you want in the message area.
- 4) Now to set the timing. Look for "Options..." in the toolbar and click on it.
- 5) In the box that appears check the box for "Do not deliver before" and then set the date and time as shown below. Then simply click "Close"
- 6) Now click  to send this email to yourself. If you did everything correctly you should get this email from yourself at 3:00 PM today

One more note. If you'd like to check your message just go to the folder labeled "Outbox" in the folder view:.)
