

WEST OSO INDEPENDENT SCHOOL DISTRICT

KIMBERLY MOORE ~ SUPERINTENDENT OF SCHOOLS

FOR IMMEDIATE RELEASE

WEST OSO ISD WEST OSO HIGH SCHOOL CAREER DAY 2025

DATE OF EVENT: THURSDAY, FEBRUARY 13, 2025

LOCATION: WEST OSO HIGH SCHOOL
754 FLATO ROAD
CORPUS CHRISTI, TX 78405

TIME: 9:00 AM TO 4:00 PM

West Oso High School is proud to host its annual Career Day, an event designed to connect students with industry professionals and equip them with the knowledge needed to make informed career choices. This year, over 70 speakers and presenters from diverse fields, including business, technology, and industry, will engage with students to discuss career pathways, educational requirements, and workplace opportunities.

Students will have the unique opportunity to explore various careers, gaining insights into the skills and education necessary for success in their fields of interest. Additionally, 8th-grade students from West Oso Junior High School will participate, encouraging them to start considering potential career options early.

“We are excited about having our students actively engaged in a meaningful learning experience that connects their education to real-world career opportunities,” said Kimberly Moore, Superintendent of Schools. “This day is about creating opportunities, and I am very proud of our staff’s efforts and the overwhelming support from the community in making this event a success.”

Superintendent Moore emphasized the importance of early career exploration, adding, “It is important for students to begin thinking about how their interests and talents can benefit them in the future. They are learning how the knowledge and skills acquired in high school can be applied to post-secondary career paths.”

Career Day at West Oso High School aligns with the district’s commitment to preparing students for college, careers, and beyond. By fostering connections between students and industry professionals, the event ensures that West Oso graduates are equipped with the tools needed to thrive in an evolving workforce.
