**TIME:** 9:00 AM TO 4:00 PM

Career Day at West Oso High School is designed to meet specific learning objectives and help students connect what they are learning in school with the workplace. Our students will have an opportunity to listen to over 70 speakers/presenters seeking information about business, technology and industry and the career options they provide. They will also learn about the education required for entry into their career pathways and about future workplace opportunities. In addition, West Oso Junior High School 8<sup>th</sup> grade students will participate in Career Day and will be encouraged to consider potential careers.

“We are excited about having our students clearly engaged and provided with an educational platform, that will enable them to make the connection between school and the workplace in order to make an informed career choice. This day is about creating opportunities and I am very proud of the efforts made by our staff and the overwhelming support of this community in making this event a success.” said Kimberly Moore, Superintendent of Schools.

“It is important for students to begin thinking early about how their interests and talents can benefit them in the future. They are learning how the knowledge and skills that they are acquiring as high school students can be utilized in post-secondary career paths,” added Supt Moore.
